8 T-One Building, 26,27 Floor

Soi Sukhumvit 40, Phra Khanong,

Khlong Toei, Bangkok, 10110

Dear Sir/Madam,

I am writing to express my interest in the Backend Developer position at LINE MAN Wongnai, which I learned about on the Facebook Page "Life at LINE MAN Wongnai".

After reading about the position in detail on the careers website at <https://careers.lmwn.com/>, I am eager to apply my skills and experience to this exciting opportunity.

I recently graduated with a Bachelor's Degree in Computer Engineering from Chulalongkorn University and have gained experience as a part-time software engineer while studying. My experience includes developing complex algorithms, designing databases, as well as being well-versed in data structures, object-oriented programming, and scripting in various programming languages including Go, JavaScript, and C++. Additionally, I have participated in several business presentation contests, such as the Thailand Post: Journey To Startup Sandbox, which have helped me to develop my teamwork skills and the ability to work well under pressure.

I admire LINE MAN Wongnai's mission of "To Help Thai People Live Better", which made me want to join the team to develop products to accomplish this mission. I am passionate about learning new technologies and always like to solve challenging problems, which I and LINE MAN Wongnai's team have in common. As I am someone who uses the Lineman app in my daily life, it reaffirms that the products created by this team are really useful. For this reason, I expect to be part of this team.

I would appreciate the opportunity to introduce myself. I am available for an interview at your convenience and I look forward to hearing from you. Thank you for your time and consideration.

Sincerely,

Mr. Thanat Wongsamut
