## CAREER OBJECTIVE

As a freshly graduated computer engineer with strong expertise in Golang, data structures, and algorithms, I am eager to apply my skills and knowledge to real-world challenges. I am seeking a Backend Developer position where I can utilize my expertise to create robust, scalable, and high-performing systems while continuously expanding my skill set and contributing to the growth of the organization. I believe in using my expertise to create software that will have a positive impact on both my team and the millions of LINEMAN Wongnai users. I view challenges as opportunities to learn and grow and am always eager to collaborate with others to find the best solutions.

## EDUCATION

**Bachelor of Computer Engineering, Chulalongkorn University** 2019 - 2023  
Bangkok, Thailand

- **Relevant Coursework** : Programming, Data structure, Algorithm, OOP, Design Pattern
